RE: Field Inspection, Wright South Mine, S/015/051, Emery County, Utah

Date of Inspection: February 5, 1991
Time of Inspection: 9:30 a.m. - 9:45 a.m.
Conditions: Sunny, clear, snow on ground
Attendees: Self

I heard from Neil Simmons, of the San Rafael Area Office, Bureau of Land Management, that the Wright South mine would become active this week. Upon inspection of the site today, I found little activity. Activity consisted of some short distanced, two-tracked roads and flagging that the operator had placed on site to mark areas for future disturbance.

The site is located some 2-3 miles southeast of the town of Moore, and can be accessed quite readily from the Moore Road. The site is just 1/4 - 1/2 mile off the Moore Road and can be seen from the road itself.
